

**Failure to follow these instructions may cause injury to you or others and/or property damage.**

- **Secure boom to forks and truck carriage.**
- **Do not exceed capacity rating of boom at hook position to be used.**
- **Do not exceed capacity rating of truck at hook position to be used.**
- **Maximum travel speed 1 mph (1.5 feet per second).**
- **Use tag lines to restrain load and prevent swinging.**
- **Limit travel distance to minimum required for positioning the load.**
- **Use spotter(s) to assist in positioning load.**
- **Keep spotter(s) and others a safe distance from the truck and the load – as far away as the distance from floor to top of boom when load is suspended.**
